

HOW TO: Pair 8832 Wireless Microphones

This document will explain how to pair the 8832 Conference Phone with Wireless Microphones.

Step 1. Select the Settings softkey on the screen of the phone.

1:17 AM		Nov 22
1 1002		
Contacts	Settings	••

Step 2. Scroll down to Device administration and Select.

Information and settings				
3	User preferences		15	
4	Network configuration		80	
5	Device administration 1		10	
	2 Select	Back		

HOW TO: Pair 8832 Wireless Microphones

Step 4. Select Wireless Microphones and Select.

Microphones	
Wired Microphones	>
Wireless Microphones 1	>
2 Select	Back

Step 5. Select either Microphone 1 or Microphone 2 and press the Pair softkey. If a microphone is already linked to a particular channel, the phone screen shows that the microphone is paired.

Wireless Microphones						
1	Microphone 1		1 Unpaired			
2	Microphone 2		Unpaired			
3	Range		Medium >			
	2 Pair	Details	Back			

Step 6. Press and hold Mute on the wireless microphone until the microphone LED blinks white. If the pairing succeeds, the phone screen displays a success message.

Step 7. Press Cancel to revert to the Wireless Microphones menu.
